Opening Access Background Information

Aligned with UNC's Academic Plan, which prioritizes equity and inclusion and global engagement, the Center for Global Initiatives is spearheading a major pan-university effort to significantly

increase the number of traditionally underserved students who have access to global opportunities.

For the purposes of this work, we use the following definition of global opportunities: 1) educational opportunities abroad (study abroad, research, service-learning, internship, work); 2) global opportunities on campus (including course work in foreign languages, events and co-curricular student activities); 3) globally-oriented service in the community (engagement with K-12 classrooms or immigrant communities).

Throughout the 2019-2020 academic year, we are collecting data to support programming of new initiatives to open access and we need your help.

Your answers to this section *WILL NOT* be seen by review committees. Your responses will not be used for evaluating your application. Your responses will be analyzed in aggregate form by program staff to develop global opportunities that address barriers to participation.
